Dhanush Kaduluri

A Highly motivated and skilled engineering student from the Bomma institute of technology with strong academic achievements and volunteering experience looking for an entry-level position as a Systems Engineer. Keen to pursue a career in the IT sector as a Systems Engineer.

Project

Cloud Computing

Combining data owner side and cloud side access control for encrypted cloud storage

- The Aim of the project is while performing the online transactions with the cloud in order to provide more secure to combine the cloud-side access control and the existing data owner side.
- By using CPABE base access control to prevent the EDO's attacks on cloud.
- we need to implement the CP-ABE based scheme without loss of data.

Covid-19 Future Forecasting Using Supervised Machine Learning Models

- COVOD-19 was a very serious threat to human life all over the world.
- To contribute to the crisis our attempt in this study is develop a forecasting system for COVID-19,
- Front-End : Python
- Presentation Layer : Html, CSS, JavaScript
- Back-End : MySQL

TECHNICAL SKILLS

- **java**
- **MySQL**
- **HTML,CSS**
- **SDLC**
- **Node.JS(Basic).**

PROFESSIONAL SKILLS

- **Excellent Communication Skills**
- **Problem Solving**
- **Good Decision Making.**
